

YOUR WERKMEISTER SLATTED BASE IS FULL OF MOVEMENT

Your WERKMEISTER slatted base is designed to adapt optimally to your body contours. With WERKMEISTER Konturo, we can even adjust each comfort zone individually to suit your personal needs. Our self-regulating stainless steel springs ensure maximum anatomical adaptation.

THE WOOD IS FULL OF LIFE

- Your new slatted base is made predominantly from wood – a high-quality natural material that absorbs and releases moisture and heat. It adapts ideally to its surrounding climate and has several other characteristics that you should be aware of.
- Small knots and growth irregularities, as well as variations in colour and grain, are normal characteristics of this naturally grown material.
- Despite careful quality grading, variations in the grain structure can cause internal stresses that may result in slight warping. This does not affect the functionality.
- Like all new materials, wood can also develop a certain natural smell. This is completely harmless and will dissipate after just a few days.
- Natural variations and tolerances resulting from the use of wood as a natural material do not constitute grounds for complaint.

HOW DO I CARE FOR MY WERKMEISTER SLATTED BASE?

Your WERKMEISTER slatted base does not require any special care. If you nevertheless wish to clean it dry, please do not use cleaning agents, white spirit or abrasive cleaners.

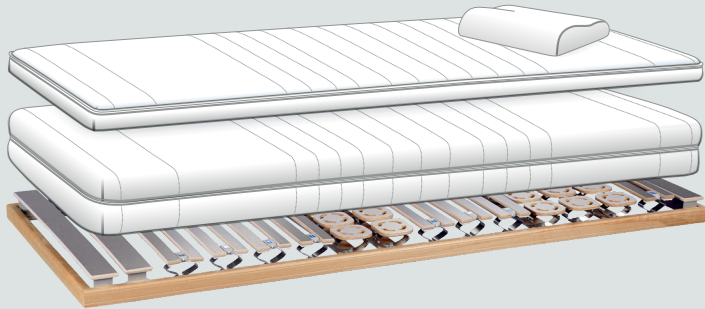

Attention!

Motors or manual controls must not be repaired or technically modified by the user. Always follow the manufacturer's information provided on the label on the motor. In the event of a malfunction, please contact your specialist dealer.

THE PERFECT COMBINATION FOR A GOOD NIGHT'S SLEEP

Sleep type, weight, age, body shape – every person is different. That's why we manufacture slatted bases, mattresses, toppers and pillows in our manufactory, tailored precisely to your individual needs. For even greater sleeping comfort, you can of course combine your Konturo slatted base with the perfect matching solutions from WERKMEISTER.

SLATTED BASES

QUALITY YOU'LL ENJOY. NIGHT AFTER NIGHT.

Dear Customer,

We are delighted that you have chosen a WERKMEISTER quality product – thank you for your trust!

As we spend around one third of our lives in the land of dreams, our bed is probably the most heavily used piece of furniture in the home. To help you sleep healthily and peacefully, our mattresses, toppers and slatted bases guarantee the highest quality in both materials and workmanship. Naturally, all materials used are rigorously tested for harmful substances.

Because we want you to enjoy the excellent sleeping and lying comfort of your new WERKMEISTER sleep system for many years to come, we have put together a few tips on proper care and handling.

We wish you many years of enjoyment and always a good night's sleep with your new quality product from the WERKMEISTER manufactory.

MANUFAKTUR-QUALITÄT

MADE IN GERMANY

* 10-year guarantee, with a reduction of 10% of the retail price for each year of use. Accordingly: Repairs and/or replacement are free of charge during the first two years.

100% guarantee during the first two years of use |
80% guarantee during the 3rd year of use | 70% guarantee during the 4th year of use |
60% guarantee during the 5th year of use | 50% guarantee during the 6th year of use | 40% guarantee during the 7th year of use | 30% guarantee during the 8th year of use | 20% guarantee during the 9th year of use | 10% guarantee during the 10th year of use.

The extended 10-year guarantee only applies if the mattress is used with a suitable and fully functional slatted base.

HOW TO ENSURE A HEALTHY ROOM CLIMATE AND SUFFICIENT VENTILATION

Mattresses and toppers also need to "breathe" – this helps extend their lifespan and prevents mould and mildew:

- Make sure that air can circulate properly through your mattress or topper and is not excessively restricted, for example by closed bed storage compartments.
- For a healthier room climate, you should ventilate your bedroom regularly, maintaining a room temperature of approx. 18–20°C and a relative humidity of no more than 60%.
- Avoid exposing your mattress or topper to direct sunlight.

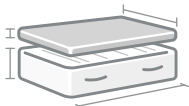

HOW SHOULD I DEAL WITH THE NEW-PRODUCT SMELL?

Mattresses and toppers may initially give off a slight new-product smell. This is completely harmless and will soon dissipate on its own.

HOW DO I CLEAN MY MATTRESS AND TOPPER COVERS?

To care for your mattress or topper cover, please use only a soft brush. To preserve its smooth surface for as long as possible, you should not vacuum it. You can find the exact care instructions for washing or cleaning on the inside of the cover.

WHAT ABOUT THE MATTRESS AND TOPPER DIMENSIONS?

The core and cover of our mattresses and toppers are deliberately made from highly elastic materials. Therefore, slight deviations of up to 1% in length and width from the nominal dimensions may occur. These do not constitute grounds for complaint.

HOW CAN I EXTEND THE LIFESPAN?

To ensure even wear, you should turn and/or rotate your mattress regularly every four weeks. Both sides of the mattress provide you with full sleeping comfort.

This does not apply to toppers and mattresses for seniors, as both have a designated top and bottom side and therefore cannot be turned over. However, the head and foot ends are identical, so you can rotate them regularly.

WHO CAN HELP ME WITH ANY FURTHER QUESTIONS?

As a manufacturer of high-quality branded products, we provide you with flawless, tested quality. Should you nevertheless have any reason for complaint, please contact one of our specialist dealers. They will be happy to assist you with any questions or requests.
